Subject: RE: Notification of Field Work Schedule - Central Area Coordinated Data Collection Event

Joe,

Thank you for your email response with attached letter and map. The Central Area Technical Team is reviewing your map and evaluating whether it would be possible to include one or more of your indicated wells in this fall's field effort. Can you (or someone from TRC) advise me and Anne Sheehan regarding the accessibility of the wells and the EPA understanding as to their current condition as it relates to being able to provide representative groundwater samples. If the wells have locks on them, who do we need to contact to open them?

I look forward to receiving you letter and CD.

Jack

Data Collection Event

Jack,

Please find attached our letter regarding the parties' pre-phase work letters.

Soon after your pre-phase sampling effort, we look forward to receiving a proposed Phase 1B work plan for the Central Area that specifically addresses EPA's May 14, 2009 comments and recommendations for the Central Area. Please call if you have any questions regarding EPA's May 14, 2009 comments and during your preparation of Phase 1B work plan.

Joe
